Valois,

I been sitting on these quarterly meeting with NRC/BLM for years now. It's usually a listening session for me so that I'm aware of the ISR activities in WY. But Dewey Burdock is also on their list of projects (see agenda). If you are interested in providing additional info than the short statement I've already provided, please feel free to call in or not... Douglas is aware of this call.

Hope you had a good time in TN! Wendy

Alan,

EPA has not made a decision on the permits as we are still working through the tribal consultation process. The permit writer for the project is out of the office but will be back before the scheduled call. I'll email her so that she knows that the group would be interested in an update. And perhaps if she is able to make the call, she'll call in or provide more info than what I have already provided via email.

Wendy

Wendy,

Not knowing the details, but being aware that Region 8 has the lead on deep injection wells in SD (specifically for the Dewey-Burdock Project), what is the status of that review?

Thank you,
Alan

Alan,

As the project officer for WDEQ, I have an interest in keeping up on the going-ons in Wyoming. Other staff work with other states and most do not deal with ISR mining. Is there something you'd like for EPA to speak to? If so, I'll ask around to see if they can provide info on that topic. But if it's a listening session, I can catch up with the notes.

Wendy,

Can someone else from your office participate?

Thank you,
Alan

Subject: Qtrly Status Mtg re: Uranium Recovery

Good morning, all. It's getting that time, again, for our quarterly conference call on uranium recovery. Attached is the basic format (draft agenda) to use as guidance for developing your status (update). Please make sure the appropriate people whose projects are listed, as well as any that are unlisted, receive it so we can all benefit from the latest information on the recent activities. Please respond NLT COB, Fri, Jun3, 2016. The agenda will be finalized by COB Mon, Jun 6, 2016.

The teleconference will take place on Wed, Jun 8, 2016 at 0800 MDT (1000 EDT).

A bridge line and pass code will be provided next week.

All, have a wonderful and safe Memorial Day, as we honor those that sacrificed themselves to preserve our country's freedom.

Thank you,

Alan B. Bjornsen
